LEONARDO

CYBERTECH EUROPE

October 3-4, 2023 // Rome, Italy

CYBERTECH EUROPE CONFERENCE AND EXHIBITION

Following a highly successful fifth edition, Cybertech Europe is returning to Rome on October 3-4, 2023.

Cybertech Europe is a two-day event consisting of a grand exhibition hall and a cutting-edge conference, attracting market-leading companies, government officials, world-renowned speakers, innovative startups, and investors from all sectors.

Conference sessions cover various topics and touch upon different sectors - from security to logistics, through finance, education, health, and more. In addition, sector-specific special events will explore the unique challenges and solutions for specified fields.

Since 2014, Cybertech has been at the epicenter of idea exchange, networking, and B2B opportunities for players across the cyber industry. With large-scale events in Tel Aviv, Europe, Asia, Latin America, North America, and more.
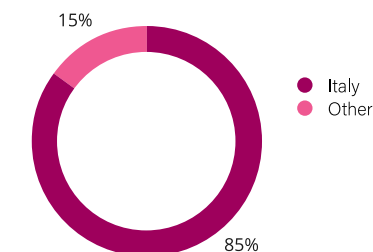

As one of the cradle of western civilization, the relentless race towards progress and innovation has its roots deep into Italian soil. Therefore, Rome is the perfect place to foster existing business connections and create new opportunities with a wide range of sectors and entities, including government, industry, and academia.

Over 50 Countries Represented | **105** Speakers | **More than 100** Companies, Startups and Organizations
Record for Number of attendees was broken once again

"We believe cybersecurity to be a team effort. Private companies, national governments, and European institutions must join forces to promote cyber resilience, safeguard communication and data, and keep European society and economy secure"

Leonardo CEO, Alessandro Profumo
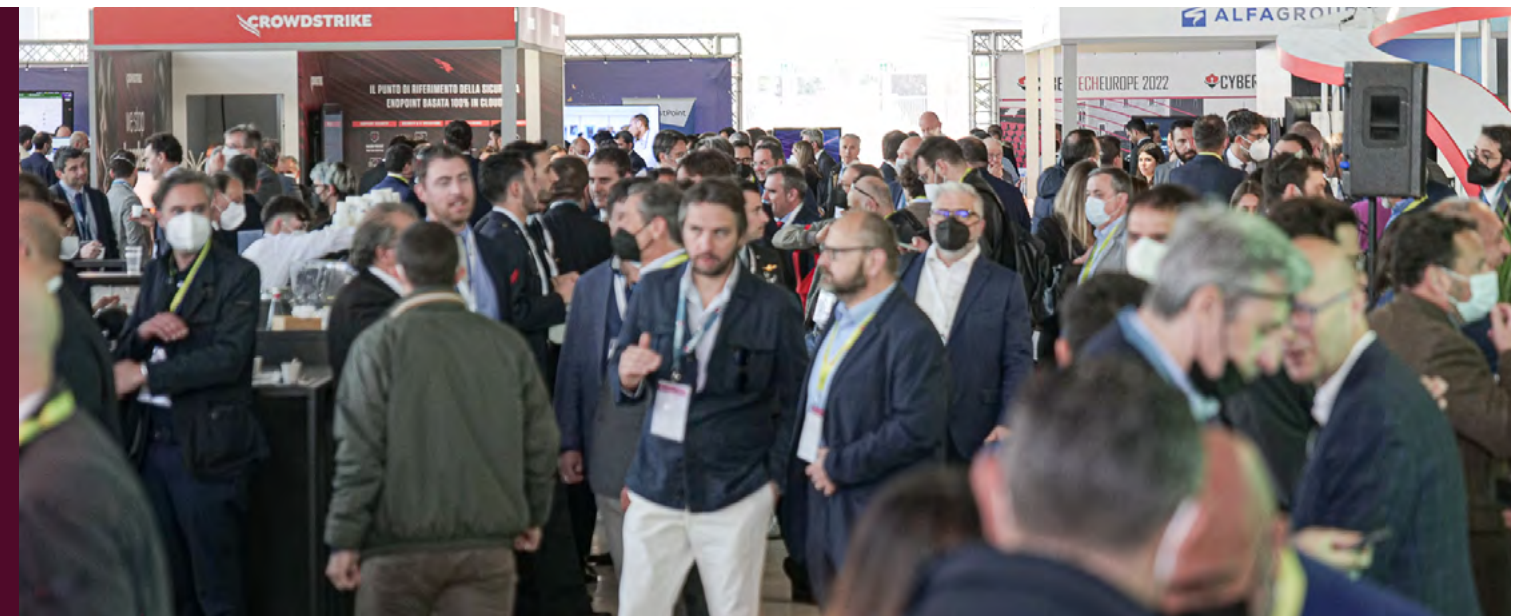

"We are here to witness the importance of cyber security. In every context of our digital life, IT components are very present and, if well managed, become a huge facilitator; if badly managed they increase the exposure surface, and this must not happen"

Yuri G. Rassega, Head of Cyber Security, Enel Group, Italy
